

"The smallest act of kindness is worth more than the grandest intention."
- Oscar Wilde

Upcoming Dates

April 8: Process March Reports (K-8)
April: Evaluation of 9-12 Participants (continuation / removal)
April: Semester Payments (9-12)
April: End-of-Year Surveys for Coordinators (required)
April: 2021-2022 Application Release
May 10: Process April Reports (K-8)
June 8: Process May Reports (K-8)

Activity Suggestion

Plan a service event with your mentor.

- Make food baskets
- Volunteer at your local food/clothing pantry
- Create personal care item bags to hand out
- Ask your church for ways to get involved in ministries

Viviana from Atlanta North School recently experienced the blessing of service and shares her story below.

God tells us that it is better to give than to receive.

My mentor and I participated in a volunteer activity where we prepared bags with personal care items for ex-prisoners. The care items included toothbrushes, toothpaste, deodorant, soap, razors and shaving cream, hairbrushes, shampoo, Kleenex, and a bottle of water. I had the idea of putting a Christian message on the water bottles, "Jesus said 'I am the living water.'" We also put Christian literature in each bag.

Reaching our goal: We asked for donations through invitations which we gave to our friends and family. We raised almost \$200 in three weeks. We bought the items we needed and worked on this project over two PFE visits.

When asked if she would participate in a volunteer activity again, Viviana said

"Yes, I would do it again because God has given me a lot and the ability to give to others in need."

La Sierra Academy

I'm Ralph, a retired pilot, Flight Instructor, and a grateful mentor for PFE. Last year, David and his mom told me about PFE and asked me if I knew of anyone at our local airport that would possibly agree to "mentor" him or who might "need help" around the hangar? I said "how about me? I'm a senior citizen, and I have a lot of pilot stories to tell." Each week we wash and inspect the airplanes, trade aviation information, and share pilot stories. Whenever we get a chance, we FLY! My favorite things include finding specific locations on the map from the air, flying at sunset along the Santa Monica coast, discussing David's future plans, and reviewing his accomplishments at Civil Air Patrol (becoming Chief Master Sgt.) Mentoring David has allowed me to share my experience in a much more personal way than when I was an instructor. It's fun and meaningful to pass on my knowledge and also spend time as friends. David often talks about the other impactful mentors the PFE program has put in his life since starting the program as a 7th grader. I'm so thankful to be part of David's life and such an amazing program.

PFE Coordinators

Watch out for a few things coming your way in April:

A special gift from SFFC

End-of-year surveys (required for 2021-2022 participation)
